Wife Murder at the West.

[TO THE ASSOCIATED PRESS.]

EVANSVILLE, Ind., Feb. 13.—Patrick Graham was arrested and locked up at Henderson, Ky., resterday, on complaint of his wife, for brutally beating her. heating her.

Last evening he broke out of the lock-up, found his wife at the wharf, at which the steamer idlewild was lying, and drew a revolver and shot her titree times, the balls taking effect in head, breast and neck, killing her instantity. Notwithstanding that the shooting was in the presence of all the idlewild's passengers, the murderer escaped in a stolen skiff.

THE EUROPEAN ARMIES.

An English View of the Situation. An English view of the Salarana.

London, Feb. 13.—The Times says that as long as the nations are unable to devise any improvement in the maintenance of their mutual relations, it is tille to complain of the continuous increase of armaments, and unjust to regard the measures adopted with this object as necessarily inconsistent with peaceful intentions.

A STOCK POINT.

Which and Kansas Pacific.

New York, Feb. 13.—D. P. Herrick & Co. have issued a circular stating that a sail is about to be commenced by the Kansas Pacific against the Union Pacific, to annul the recent coosolidation, and that it would cause a decline of from 10 to 20 per cent. In those stocks. They advise customers to invest in this point.

Attemas H. Holmes, counsel for the Kansas Pacific, prints a letter to Postmaster James stating that no suithas been instituted, and calling on the Postmaster to stop the firm from victimizing people. The Postmaster will not deliver letters to Herrick & Co: under the recent decision of the Postmaster-General, until Herrick & Co. prove their respectability and honesty.

RAILROAD ACCIDENT -The boat freight train on the New York and New England Railroad. on the New York and New England Rallroad, leaving Putman for Boston at 7 o'clock this morning, broke apart in two places near East Thompson. The parts of the train afterwards ran together with a crash, wrecking dive cars and piling them across the track. On the train were two new horse-cars for Boston, which were badly damaged. A wrecking car was sent out from Boston and reached the scene of the accident early this afternoon.

THE NEW HAMPSHIRE TRAGEDY. The Post-Mortem - The Victim's Funeral.

The Post-Mortein — The Victim's Filherni.

The post mortein examination in the case of the innidered woman, Mrs. E. V. Dillingham, reveals the most startling and positive results. The builet was found in the interior part of the right side of the brain; the ball entered the left base of the head. The wound on the left tempie went to the skull only, and was inflicted probably by a hammer found in the room.

The pi-tol must have been held close to the woman's head, and by a left-handed assailant. If Sherif Clark's theory concerning her position is correct, the treatment of the woman after she was shot was necessarily such as prevented the physicians at the examination from ascertaining positively whether or not an outrage was committed. Mrs. Dillingham was pregnant, and up to such period as made the assault a double murder.

The unexpected discoveries at the post mortem examination have completely destroyed the statement of the murderer, that the shooting was accidental, and to shut the door against all possible escape for him. The prisoner is left-handed, which only corroborates the position of the physicians in regard to that point.

Young Dillingham has not confessed that he committed an outrage, but he has made disclosures which lead directly to his undoubted qui't. It is not probable that the Grand Jury can be recalled at the present term of the Supreme Court in this county, and hence Dillingham will not probably be tried until the April term.

The funeral of Mrs. Dillingham occurred year.

ham will not product, a control term.

The funeral of Mrs. Dillingham occurred yesterday at the Presbyterian Church in London-derry. There was avery large attendance of people, including many from Londonderry and delegations from all the neighboring places. There were prayers at the late home of the deceased, after which the remains were conveyed to the church, followed by a long funeral cortege.

HARDLT to be credited, but it is nevertheless true, that a sick horre or a bid-conditioned cow can be brought up in a few days by the use of Simmons's Liver Regulator. The powders should be mixed with the food, and they will eat it readily; and it is surprising to see what improvement immediately takes place. It opens the bowels, strengthening them, and does all and even more than the best Condition Powders. A small quantity in the food for chickens will care cholera and keep the pomity healthy.
